

Purpose of the Self-Identification Form

As a condition to your employment with the Court, all new employees are subject to an FBI background investigation. To facilitate this process, a Judicial Self-Identification Form must be completed as part of your appointment paperwork. This form will be submitted to the U.S. Pretrial Services Department and they will contact you to schedule a date for you to be fingerprinted which is a requirement for your FBI investigation.

If you have any questions related to this matter, please contact the Human Resources Department.
