

Overview

CM/ECF automatically provides a unique page number for every page of each document in a case. The page ID numbers are sequenced in the order in which the documents are filed in a case. Selected documents display the same unique page number each time it is printed or viewed.

Sequential pagination is in addition to:

- ✓ existing individual document pagination supplied by the document author,
- ✓ the pagination created by the PDF Header functionality in CM/ECF, and
- ✓ the pagination within the PDF document generated when a record on appeal or appendix is produced.

Each page of multiple documents attached to a single docket entry has a unique sequential page number in the order in which a document is attached.

Case: 1:10-cv-00021 Document #: 2 Filed: 06/09/10 Page 1 of 1 PageID #: 2

If the second document is deleted and a new document with three pages is added to the docket entry, a gap is created in the numbering.

Case: 1:10-cv-00021 Document #: 2 Filed: 06/09/10 Page 1 of 3 PageID #: 6

Search for a Document or PageID

1. Enter the document number or PageID number.
2. Click **Run Report**.

Docket Sheet

Case number: 1:10-cv-1002

Create an Binder (Appendix) with Document Links

This process allows you to combine two or more documents into one binder. Keep in mind, however, that PACER charges do apply when viewing a previously filed document. When charges apply, a screen will display the per pay charge before you are allowed to continue.

1. Check **Create Appendix**.
