

General Information Regarding Civil Sealed Filings

The General Order on Electronic Case Filing has been revised to require the electronic filing of sealed/restricted documents in civil and criminal cases, Administrative Records, State Court Records, and Ex Parte motion/documents.

Sealed Cases

- In sealed cases, you still file in paper format.

Sealed Documents

- You **will not** be able to view a sealed document after it is filed.
- Opposing counsel **will not** be able to view the document you have filed.
- A Notice of Electronic Filing will be sent to opposing counsel, however, it does not constitute service (General Order 16-0020 X (C).)
- Service to opposing counsel **must be** made using non-CM/ECF means.

Ex Parte Motions/Documents

- A Notice of Electronic Filings **will not** be sent to opposing counsel.
- You **will not** have the ability to view the document after it is filed; only chambers will be able to view the document.

IMPORTANT: This event is for SEALED documents only.

Pursuant to 26.2(c) any party wishing to file a document or portion of a document electronically under seal in connection with a motion, brief or other submission must

1 provisionally file the document electronically under seal

2 file electronically at the same time a public-record version of the brief, motion or other submission with only the sealed document excluded and

3 move the court for leave to file the document under seal.

The sealing motion must be filed before or simultaneously with the provisional filing of the document under seal, and must be noticed for presentment promptly thereafter. Any document filed under seal without such a sealing motion may be stricken by the court without notice.

Sealed documents can only be filed pursuant to court order as provided for by LR26.2. You **will not** have the ability to view the document after it is filed. A Notice of Electronic Filing will be sent to opposing counsel who **will not** be able to view the document you have filed. Therefore, service to opposing counsel must be made using non-CM/ECF means.
