

What does the Bill of Rights
mean to me?
It means I finally
get to be free

It means I'm a bird
flying high
Above the clouds
touching stars in the sky

A chance to do right
after doing something wrong
Like a songbird
signing a forgiveness song

If I do something wrong,
I still get a trail
That might seem as long
as the river called Nile

It means justice is severed
where the truth is found
High in the mountains
or buried underground

I can say what I want
because there is freedom of speech
Good or bad
newspaper headings will scream

I have freedom to move
I'm not rooted in the ground
I can carry stuff as far
as the bark of a hound

I can praise who I want to
which will always be God
I can do as I choose to
I can do what I want

Or even though I am a girl
told I should hide in the dark
I still light up the world
with my creative spark

What does the Bill of Rights
mean to me?
It means I get to be who I want to be
and that's all I'll ever need
